

NEWSLETTER MBSS

September 2025

Training registry of the Modern Business Services sector

WHAT'S NEW WITH US?

In this edition of our newsletter, we invite you to attend the planned industry conferences, which mark the final stage of the project.

We also reveal details about the next partner meeting, which will take place in November.

Enjoy reading!

Co-funded by the European Union

Disemination conference

Krakow, Poland

Time for the next stage of the project

MARR invites you to a conference in Krakow

On 21 October, a conference dedicated to disseminating the results of the project will be held at Stara Zajezdnia in Krakow. The event is organised by Małopolska Regional Development Agency S.A.

Several experts will take part in the event, presenting the latest trends and technological solutions supporting the development of the industry. However, the main focus of the conference will be the presentation of the results of our project. During the event, the organisers will focus on presenting the Training Services Register for the Modern Training Services Sector and its functionality.

The conference programme will be complemented by presentations of tools using artificial intelligence and practical demonstrations of VR and AR technology applications in the service sector. Participants will also have access to a special VR zone, where they will be able to test modern immersive technologies and see how they support the development of competences and training processes (including a demo of a training application prepared as part of the project).

Participation in the event is free of charge. More information is available at 10mff.marr.pl, where we invite all those interested in participating in the conference to visit.

We also learned the date of the coordinator's conference!

On 21 November, we invite you to Lublin (Poland) for a conference organised by the project leader, Syntea S.A. This will be an international event (held in English), so it may be of interest to guests from other parts of Europe.

Among the invited guests will be specialists working in the technology, education and business sectors.

During the event, participants will learn about the results of the project and the functioning of the innovative Training Register, which provides access to high-quality educational offers supporting the development of competences and qualifications in the MBS sector.

More information about the event can be found at www.syntea.pl/konferencja, where further news and details will be posted on an ongoing basis.

MEETING PROJECT

The last partners' meeting is ahead of us

In accordance with the project schedule, each partner had the pleasure of hosting one of the working meetings, creating space for fruitful and intensive cooperation. The last meeting of the partners will take place on 17–18 November in Italy, and the event will be hosted by ASEV – Agency for the Development of the Empolese Valdelsa.

During the two-day meeting, the main objective will be to summarise in detail all the activities carried out during the project. In addition, a key item on the agenda will be the presentation of the final results of the national conferences organised and conducted by the partners: MARR, DEKAPLUS, ASEV and Euro-NET. The final part of the meeting will be dedicated to strategic discussions aimed at discussing and exploring opportunities for further cooperation, which will consolidate the results achieved and lay the foundations for new international initiatives.
